

A caring integrative approach for your pets.

Please use this checklist to help prepare for your pet's stay.

VACCINE RECORDS

We require Rabies, DAP/titers, Bordatella, Canine Influenza and a negative fecal within the past year for dogs. We require Rabies, FCP/titers, and a negative fecal within the past year for cats.

FOOD

We provide dry Purina EN since it is easy on the stomach. However, we highly recommend that you bring your pet's own food since it is something familiar to them. Changes in the diet could cause dietary upset. There is an additional charge for microwaving food.

BEDDING

All runs come with a cot and all the cages have grates so the pets are not on the cold hard surface. You are welcome to bring any bedding, towels, t-shirts, or blankets but please label all items brought with your pet.

TOYS

We welcome you to bring any toys you feel will help your pet's stay.

TREATS

We welcome you to bring your pet's favorite treats. There is no charge for you to bring your own. We offer a treat time with peanut butter or cheese whiz in a kong for an additional charge. This helps keep them busy during their stay.

MEDICATION

Please bring your pet's medications clearly labeled with clear instructions on how to give the medications. There is an additional charge for giving medications. It is hospital policy that the veterinary technicians and assistants give any needed injections.

BOARDING FORM AND DETAILS

Please print our online boarding form and return it to us filled out completely and signed. Please notify us of any significant health issues or changes in your pet's behavior/routine.

CONTACT INFORMATION

Please bring all contact information for us to call while you are away. We will always prefer to speak to you directly. However, we realize in some situations owners are not available by phone so we may have to communicate to a friend or family member.
